Creating
Visionary
Spaces

STUDIO BELLE is dedicated to creating enriching and beautiful spaces that perfectly reflect the style of each client. This is where vision becomes reality.

STUDIO BELLE believes in telling their clients' stories, empowering them to discover their own individual style. Good design has the power to enrich lives and elevate spaces. Through deep collaboration, STUDIO BELLE weaves together the narrative clients want to see in their spaces, ensuring the designs always connect personally with those who will enjoy them. Let STUDIO BELLE's vision help uncover yours.

STUDIO BELLE thrives on the cutting edge of design and technology. Their one-of-a-kind renders play a crucial role in the design process, allowing clients to experience their home before it's built. From complete renovations and builds to furniture curation and final styling finesse, STUDIO BELLE offers a comprehensive range of design services tailored to each client's needs.

STUDIO BELLE draws on the intelligence of form, the wisdom of nature, and the richness of texture to create beautifully crafted, considered living spaces that deeply connect. Their experienced team of interior designers and stylists curate homes that are well-planned, beautifully crafted, and uniquely yours.

Incredible relationships have been built with Sydney’s finest builders, architects, and landscapers, enabling the team at STUDIO BELLE to provide the highest-quality support from the structural ideation stage to the impeccable finishing touches

To ensure that every design keeps budget and construction in mind, we are committed to involving builders in the process as soon as possible – helping prevent costly or untimely issues in construction phases.
Our founder Sarah cultivated this approach while renovating and selling 16 luxury houses, developing an intimate understanding of construction processes and budget management. Making sure our designs deliver a return on investment as well as beauty, is as important to us as it is you.

Advisory

Renovating or building a home may be the most rewarding thing you ever do, but it can also be quite overwhelming.

STUDIO BELLE has decades of experience renovating homes and have designed a range of advisory services to take the stress out of renovating. From finding you a suitable builder, to generating a full project cost guide, construction quote reviews and help trimming costs, and even troubleshooting unforeseen issues mid-construction, our team are available to ensure the best outcome and experience for your project. We even offer pre-purchase advisory services for home buyers, so they can be confident of a home's potential and the investment required to realise it, before they make an offer.

Our Advisory Services Include:

PRE-PURCHASE FEASIBILITY STUDIES (FOR HOME BUYERS)

- On-site consultation to discuss potential of home.
- Floor plan recommendations.
- Design opportunity mood board.
- A project budget guide.
- 10.7 planning control review.

ADVISORY

- Strategic Planning.
- Builder introductions.
- Project budget advisory before and throughout construction if required.
- Construction support to ensure integrity of the design is maintained and help troubleshoot unforeseen issues.

Design Service

We can work solely with you, or alongside you and your broader architectural and design team, to bring your project to life. It is highly recommended you engage us as early as possible in your project, to ensure your design can achieve its full potential. However, no matter what project stage you choose to engage us in – before or mid-build – we will bring new ideas and solutions to make a space functional, beautiful and above all personal. Because that's where good design begins.

OUR INTERIOR DESIGN
SERVICES INCLUDE:

- Architectural review of existing home plans.
- Design concept development.
- Creation of new floor plans, layouts and structural plans.
- Curation of interior finishes schedule.
- Development of lighting and electrical plans.
- Design of custom cabinetry design and specifications for wardrobes etc.
- Production of photo realistic 3D visualisations.
- Development of construction drawings that transition architectural DA plans into detailed plans for builder quotations and construction.
